

6th Aarhus Immunotherapy Symposium (AIS6)

New insights and therapies for immunological diseases

**Thursday November 26th, 3:00-6:30 PM CET
Webinar (Sign-up below)**

3:00-4:00 pm CET

[Solange Peters](#), Lausanne University, Lausanne, CH:
"Promises and limitations of immunotherapy for lung cancer"

[Malte Peters](#), Morphosys AG, Munich, DE:
"Modern Drug Development Using Real World Data Approaches"

-BREAK-

4:15-5:45 pm CET

[Mario Ehlers](#), Boehringer Ingelheim, Ridgefield, US:
"T cell exhaustion as a therapeutic strategy in autoimmunity"

[Stinne Greisen](#), Aarhus University, Aarhus, DK: *"Co-inhibitory receptors in arthritic conditions - their relation to disease activity and tissue preservation"*

[Michael Ehrenstein](#), University College London, London, UK: *"Anti-TNF was the first regulatory T cell targeted therapy for rheumatoid arthritis"*

-BREAK-

6:00-7:00 pm CET

[Adam Sander](#), AdaptVac, Copenhagen, DK: *"Development of a COVID-19 vaccine based on virus-like particles displaying the SARS-CoV-2 receptor-binding domain"*

[Stephen Durham](#), Imperial College, London, UK: *"New indications for allergen immunotherapy"*
