

Biopeople Newsletter March 2018

**Cancer therapies: How we link drug sensitivity to molecular profiling to identify biomarkers.**

Professor Krister Wennerberg talks on stratified cancer therapies and their predictive biomarkers on Oncology Network meeting April 9th.

Biopeople/Biomarkers as emerging growth area joins forces with Medicon Valley Alliance on April 9th and invites members til MVA Oncology Networks 5th meeting covering the topic "Biomarkers – opportunities and challenges in oncology drug development":

The keynote and scoop of the day is Professor Krister Wennerberg who will talk on "Systems medicine methods for identification of stratified cancer therapies and their predictive biomarkers".

"I will describe how we combine comprehensive drug sensitivity testing with molecular profiling on primary cancer cells to identify and understand stratified drug vulnerabilities and study how this information may translate to the patient", he says to the Biopeople Newsletter.

**Proceedings in progress.**

More news in April on the International Conference on Perspectives in Precision Medicine, taking place 28 February 2018 - 1 March 2018, in Maersk Tower, Faculty of Health and Medical Sciences, University of Copenhagen, Denmark. Watch out for the special edition newsletter with presentations, conference proceedings and photos.

Sign up for Biopeople's newsletter to get it first.

## Upcoming events

**BIO KOREA** **May 9(Wed) ~ 11(Fri), 2018**  
**COEX, KOREA**

**BIOKOREA 2018, May 9. - 11, Seoul, Korea**

The Korean biggest international healthcare exhibition and congress: Conference, Business Forum, Exhibition, Pharm Fair, MedTech Fair, Invest Fair, Job Fair, etc . An effective platform towards the Korean market.

The Danish Embassy offers various services.

[> READ MORE](#)**First Nordic conference on personalized medicine, Nyborg, Denmark. May 30. – June 1. 2018.**

Basic and clinical aspects of research regarding personalized medicine: pharmacogenetics, drug interactions, epigenetics and other factors that may cause variation in drug response among individuals.

[> READ MORE](#)**MedFIT convention, Strasbourg. June 26. - 27. 2018.**

Are you a Danish SME working with diagnostics and personalised medicine or medical technologies? And are you considering attending the MedFIT convention? Get a 15 % discount - and maybe your travel costs covered as an SME. MedFIT is one of the leading European business conventions dedicated to innovation partnerships in the field of diagnostics and medical technologies.
