

Dear member of Biopeople's network

Please find our newsletter October 2017.

Biomarker AGORA is coming up this week and we have full house with 76 exhibition booths, more than 200 registered guests, 2 keynote speakers and an ICT workshop - we look forward to an exciting day. Deadline has passed for registration, but everybody is welcome to join - we just can't provide lunch bag for non-registered guests. The AGORA takes place at the University of Copenhagen, Marmorhallen, Thorvaldsensvej 40, Frederiksberg, [see program here](#).
