

CMC Event: Biologics product development in the age of data

This CMC event applies to CMC development people in biotech and pharma companies that seek input on applied tools to solve CMC challenges

This event is for you if you want to know

- the next step for your drug product from research to market and not only rely on your CMC consultant
- more about establishment of MCB, process optimisation, formulation development, characterisation, QA, QC, regulatory affairs etc.

Program

- Welcome and setting the scene,
Jane Nøhr, Biopeople and Gunhild Klarskov, CMC Value Advisory
- The Importance of Molecular Interactions under Injection Site Conditions,
Holger Strauss, Specialist, CMC & Formulation, Evaxion Biotech A/S
- Biosimilar Formulation Development – Challenges and Solutions,
Faramarz Moshfegh, CMC Drug Product Consulting
- Selecting the best CMO partner,
Bolette Bjerregaard, Senior Project Manager at Genmab

We welcome all with an interest in seeking and sharing scientific knowledge regarding medicinal products. Participation is free-of-charge, but registration is mandatory. We look forward to seeing you in March.

For further information please contact Gunhild at gklar@cmcvalueadvisory.com,

Fara at famo@cmcdp.dk or Jane at jane.noehr@biopeople.ku.dk

Participants list: By participating in this event, you have consented to the publishing and availability (to other participants) of the participant lists with your contact details.

Registration of contact details: Biopeople will register your contact details to keep track of our matchmaking activities.

Photographs: Photos to be made at the event, may be published as part of Biopeople communications. Please contact the Biopeople representative at the event, if you do not want your photo published.
